Project Background

A bypass has been considered by Heber City and Wasatch County for over 20 years:

- Identified in City and County planning documents
- Right-of-way acquired for portions of a western bypass
- UDOT and Heber City completed a corridor planning study in 2019
- Findings indicated further evaluation through the NEPA process

Project Overview

Project Timeline & Process

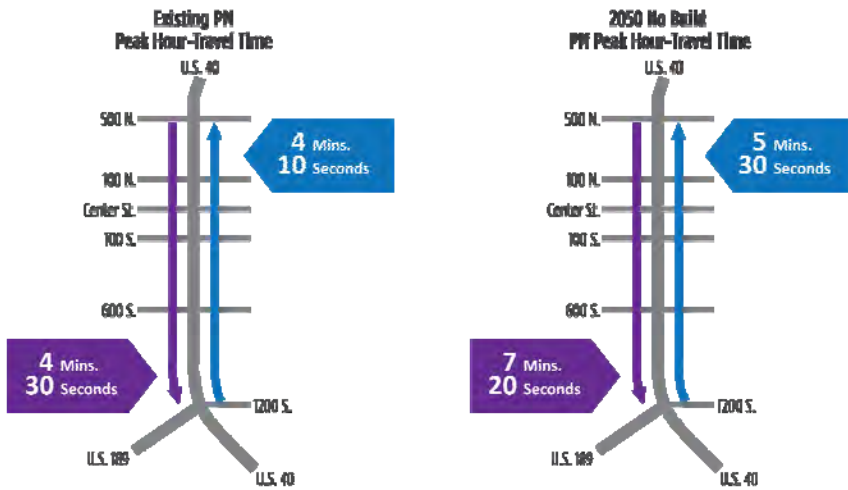

MONTHLY COORDINATION WITH LOCAL GOVERNMENT AND REGULAR STAKEHOLDER WORKING GROUP MEETINGS

PROJECT NEEDS AND SCOPE

Existing and Future Conditions

Stakeholder Input – Main Street

Main Street:

- Congested in afternoon and summer weekends
- Difficult to cross or turn onto
- Pedestrian safety is a concern
- Heber City and community desire to create a pedestrian-friendly downtown

Preliminary Resource Evaluation

Aquatic Resources

Aquatic resources based on available data and spot check in field

Aquatic Resource Type	Size (acres)
Riverine	60.69
Freshwater emergent wetland	751.16
Freshwater pond	11.13
Total aquatic resources	823.00

Biological Resources

Species with potential suitable habitat based on available data and spot check

Special Status	Species
Federally listed	Ute ladies'-tresses
Utah conservation agreement species	Columbia spotted Frog Northern goshawk
Migratory birds	11 species

Archaeological Resources

Potential for archaeological resources based on available data

- Few surveys have been conducted
- Areas near water have a higher potential for archaeological resources
- Most known and readily identifiable sites are linear features (e.g., canals and railroads)

Historic Structures

Potential for historic structures based on available data

- Numerous historical buildings
- Concentrated in Heber City with clusters along roads

Public Meeting & Comment Period

Early Scoping Public Meeting:

- Virtual public meeting August 27 from 6:00-8:00 p.m.
 - Initiates the NEPA scoping process

Meeting Topics

1. Project Overview

- a. Heber City and Wasatch County have been contemplating a bypass for years and have acquired land west of Heber City for the purposes of a bypass.
- b. UDOT, Heber City, and Wasatch County completed a corridor planning study in 2019. Several concepts were evaluated which will inform the NEPA process. UDOT is not presuming a bypass will be the preferred alternative, or where it would be located if a bypass is proposed.
- c. Schedule:
 - i. Project is currently in the early scoping phase, developing draft purpose and need through 2020.
 - ii. Anticipate filing a Notice of Intent in early 2021. UDOT may choose not to hold another public scoping meeting at that time, but a draft purpose and need and early scoping summary report would be available for public and agency comment regardless.
 - iii. Alternatives development in spring 2021, DEIS in summer 2022, FEIS and ROD (combined) in early 2023.

2. Preliminary project need
 - a. Traffic analysis shows travel time projected to increase substantially by 2050.
 - b. Stakeholders have expressed concerns with congestion, a high number of oil-tanker trucks on Main Street, difficulty crossing or turning onto Main Street, and pedestrian safety. Heber City has a goal to make downtown Main Street more pedestrian friendly.
3. Preliminary resource findings
 - a. High level resource evaluation based on available data with a limited field review to ground truth. More intensive surveys will be conducted after alternatives have been developed and a study area is better defined.
 - b. Wetlands are concentrated in the northwest quadrant.
 - c. If the study area encompasses the Provo River Restoration area, coordination with the Mitigation Commission may be necessary.
 - d. Northwest quadrant could include sensitive high-value aquatic resources (e.g., springs) which are more difficult to mitigate.
 - e. Special status species that may have suitable habitat and/or occur in the evaluation area include Ute-ladies-tresses', Columbia spotted frog, northern goshawk, and migratory birds. There is potentially suitable habitat for yellow-billed cuckoo outside the evaluation area along the Provo River.
 - f. Not much of the evaluation area has been surveyed for archaeological resources. There is a high concentration of historic buildings in Heber City.
4. Cooperating and participating agency interest
 - a. Interest in being a Cooperating Agency increases with potential for alternatives in the northwest quadrant. USACE, EPA, USFWS, and UDWR would be interested in a higher level of involvement at the onset, but could scale back involvement if there are no alternatives in the northwest quadrant.
 - b. UDOT will offer Cooperating Agency status to the Federal agencies (USACE, EPA, USFWS), and work with UDWR on level of involvement. Each agency can determine the appropriate response. If no response is provided, the default is Participating Agency.
5. Next steps
 - a. Public open house tonight with 30 day comment period. This meeting is an early NEPA scoping. UDOT may or may not have a public scoping meeting after release of the NOI.
 - b. Please fill out NEPA scoping environmental checklist and return to Naomi today.
